

E-Series Water Mist

Unique to Jewel Fire Group, this revolutionary range uses de-ionized water with no additives whatsoever. Ideal for internal use, especially where footfall is high, this multipurpose extinguisher is safer to use, cleaner, more environmentally friendly and more cost-effective over the life cycle.

Key Benefits

- Multipurpose covering many classes of fire risk
- The fine mist has been tested over 5 years to be Legionella-free
- 2L and 6L red versions are Kitemarked and Marine Equipment compliant
- Training is easier and simplified
- Minimal collateral damage in a real fire situation so downtime is reduced
- Exceptional at clearing smoke
- Lower costs for servicing, disposal of agents, training and downtime
